STRUCTURE

- Intensive 50-hour academic programme + activities

SPECIAL EXCURSIONS

- Lake Como Excursion
- Milan Sightseeing

WHAT'S INCLUDED

- Daily lessons, labs & hospital simulations.
- Accommodation at Aparto
- All excursions & cultural activities
- Insurance & 24/7 staff support

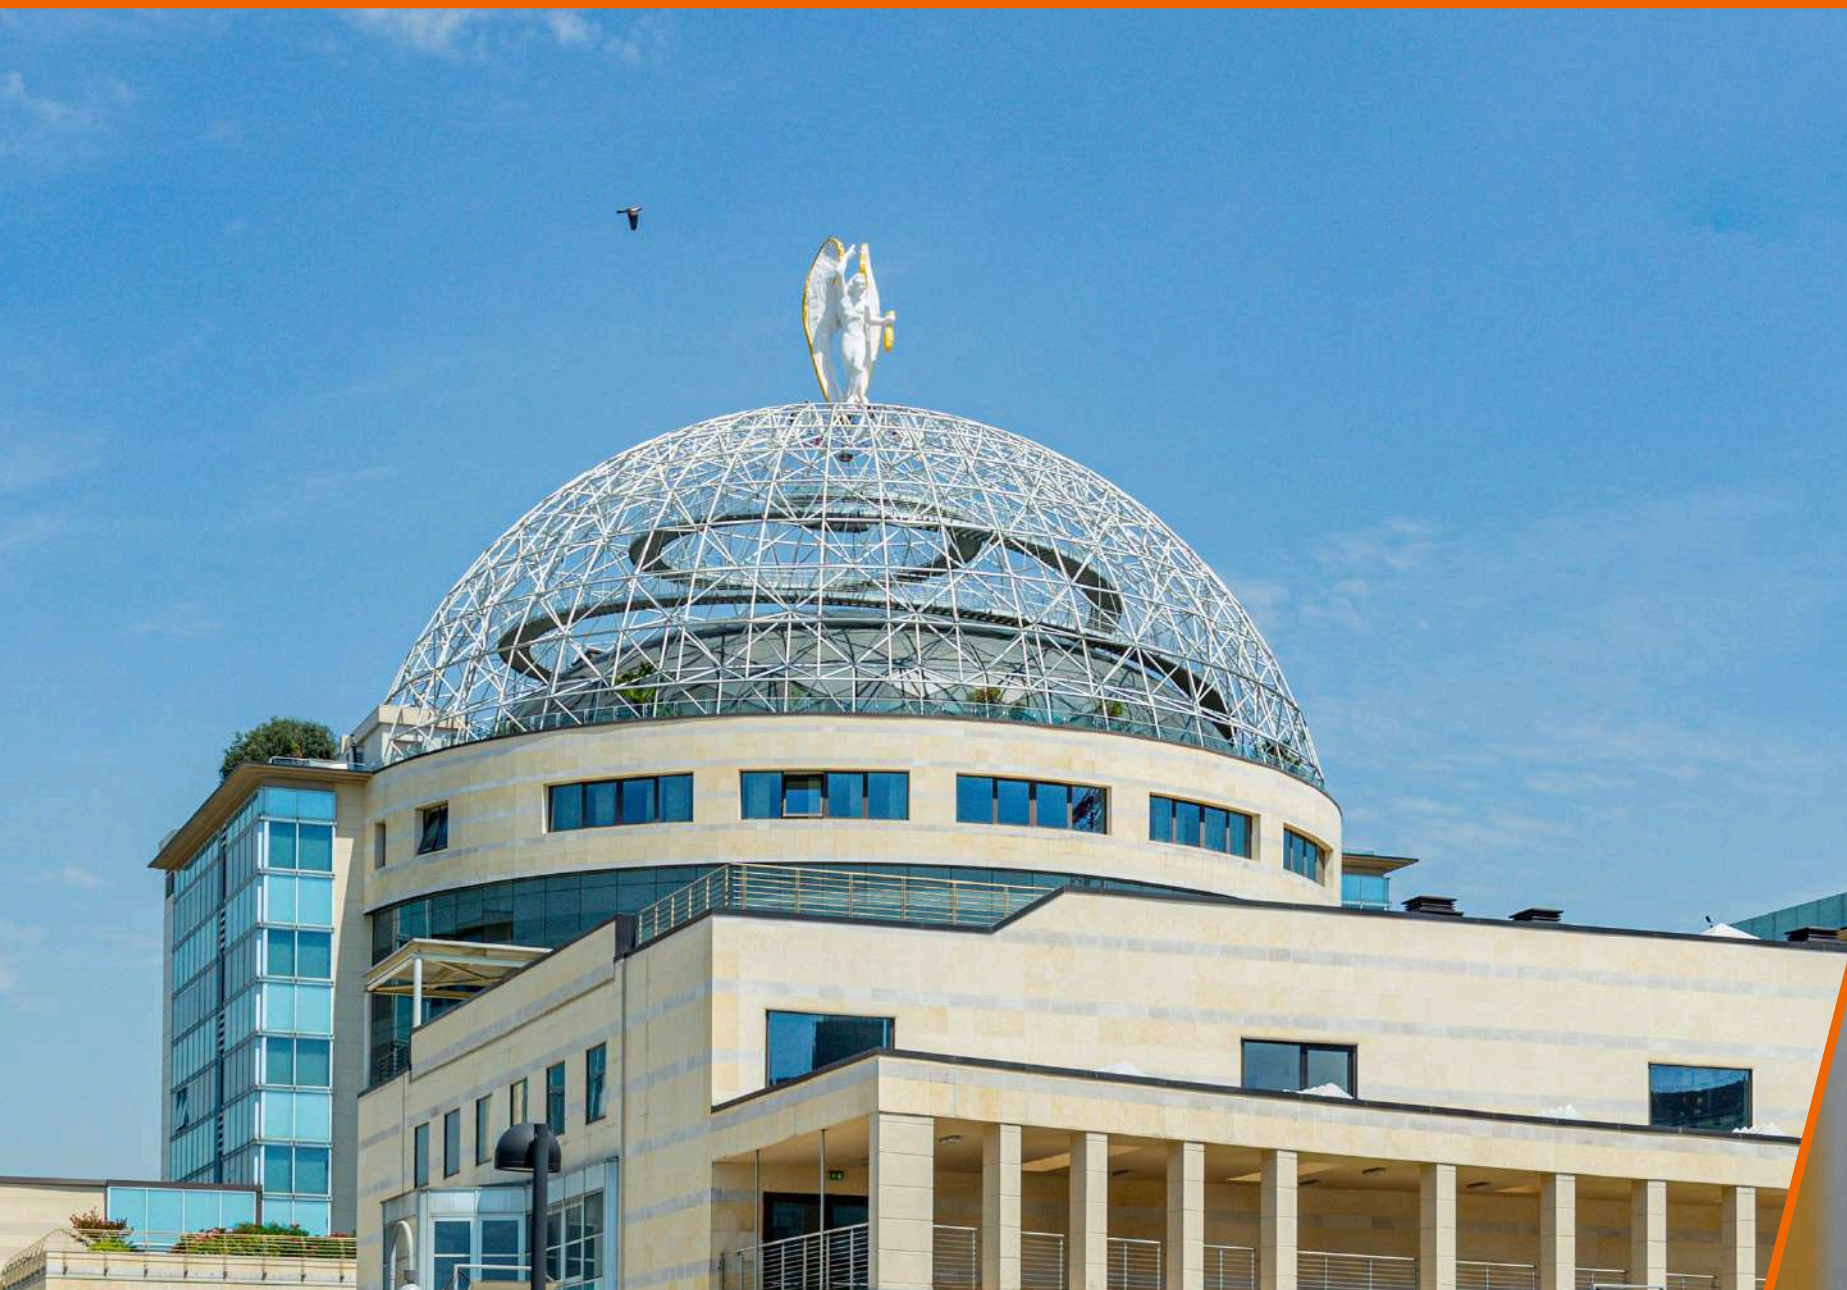

UniSR
Università Vita-Salute
San Raffaele

LOCATION

The program takes place at **UNISR** is a leading medical school in Italy known for its exceptional integration of teaching and research. One of the university's defining features is its close affiliation with the renowned **San Raffaele Research Hospital**, a pioneer in cutting-edge medical and scientific research. UNISR is ranked **top 40 universities** in the World and offers a 6-year International MD program.

ACADEMIC PROGRAM

Available:

July 5 – July 18

Students are introduced to the fundamentals of medicine and healthcare practice, learning the theoretical foundations of key medical specialties while gaining practical experience through hands-on simulations in the simulator lab. The program will also teach students the fundamentals of doctor-patient interactions, medical research as well as deep dive into the admission process for Italian medical universities.
